### **A Victory for Our Community—and a Step Toward Real Change**

Sun Prairie, WI — We extend our heartfelt congratulations to Isaac Sung on his appointment to the Sun Prairie Area School Board. This is not just a personal achievement—it's a victory for every parent, student, and advocate who stood up, spoke out, and demanded leadership that reflects the will of the community. Isaac's appointment marks the third unprecedented decision by the board in as many weeks. First, they rejected the superintendent's communication self-assessments. Then, they chose to listen to the voices of the community by appointing a candidate the public supported. These are not small shifts. They are **signs of a board beginning to respond to the people it serves.**

**This moment belongs to all of us.**

It is proof that advocacy works. That pressure matters. That when we unify around purpose—protecting our kids, restoring trust, demanding accountability—we can move mountains. Isaac's presence on the board is the first step in a long journey toward systemic change. We look forward to working with him, collaborating with the board, and continuing to push for the transparency, safety, and integrity our district so urgently needs.

Let this be a spark. Let it be a signal. Let it be the beginning of a new chapter—one written by all of us, together.

**Congratulations, Isaac.** We're ready to move forward—with unity, with purpose, and with resolve.
